DETAILED ACTION

Allowable Subject Matter

Claims 1 and 4-8 are allowed.

The following is an examiner's statement of reasons for allowance:

There is no prior art that suggests a liquid container with more than one liquid supply hole formed a tubular member, said tubular member having an air introducing port and liquid introducing port at the bottom of said tubular member.

Bailey (US 4159790) discloses a liquid container having a tubular member with a plurality of holes; however, liquid is removed from the container through the holes, rather than supplied to the container. There is also no air introducing or liquid introducing port connected to the tubular member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
